ARIZONA KICKER

PUBLISHED W. DNESDAYS. TERMS OF SURSCEIPTIONS: year,.....\$4 00 6 r months 2 00

Arizona is enjoying a season of mining activity unequaled in the history of the territory."

"Buckey" O'Neill is making a rattling mayor, the best Prescott has

St. Louis is the largest street car manufacturing city in the world. The output last year was about 3,000 cars.

The losses by the floods in the Mississippi valley this year are rapidly rising to the \$100,000,000 mark, and spend the heated term. the big river is still beeming.

A Mexican knows no law for the sticking on of a postage stamp. He eften puts it on the back of the envelope, where it serves as a seal.

An Arkansaw legislater has introduced a resolution to sax the air ship -as soon as it can be found-as a common carrier "flying through the air of the great state of Arkansaw."

The armor plate difficulties will in all preprability be settled by the the serenity of the police department. navy department paying \$400 per ton Several suspects are in custody, while for armor plate to home manufacturers the detectives are making a tireless instead of \$300 per ton, the limit of the price fixed by congress.

A press in a New York printing effice prints 96,000 eight-page papers an hour, and consumes thirty two and of the teams is Percheron stock, the a half miles of paper in the same time, This is perhaps the largest press ever 1700 pounds each. They are the propbuilt for newspaper work. Sixteen crty of the Copper Queen Company, pages are run at the rate of 46,000 per one team to be used on the large iron hour.

It is stated that the number of suieides in this country has risen from 2010 in 1890 to 6420 in 1896. The Medical Examiner says that by those who have considered the subject, the incontestable life insurance policy is blamed very largely for this enormous nc rease in self destruction.

The postoffice department pays the New York Central R. R. \$3,000 a mile for earrying mail between New ¡York and Buffalo. This sum alone-which is only a very small fraction of the government's aggregate expense for mail service-would pay 5 per cent Interest on a valuation of \$60,000 a

A fee of \$10 is charged up to a capitalization of \$50,000. In excess of that amount a fee of 15 cents on each \$1,000 is charged. No doubt Co'eradons will discover to their sorrow that this obnoxious law will be overcome just as it has been in Montana. Aside frem this, the business of mining is retarded.

The following sensible remarks are made by the Prescott Courier. They apply to the whole of Arizona: "If some enterprising man with living water on his ranch would go into the fish business, make ponds and stock them with channel est fish, he would succeed and make money. The blue eat is a fine food fish, very hardy and aquick grower. It is unfortunate that so many people got disgusted in the latest and most approved with fish culture through starting methods and the people of Tombstone with the worthless German carp."

Some 1,300 depositors in the wrecked Globe Savings bank at Chicage have petitioned the state legislature to make good their losses of \$400,000. The Albuquerque Democrat thinks, this is a new idea which is bound so be very popular with losers in bank wrecks. But it is the people who have got ready cash rather than those who have lost their ready cash who stand a better chance with the average American legislature. Besides in this case, the state of Illinois has losses of its own to look after in the Globe affair.

Stands at The Head, Aug. J. Bozel, the leading druggist of Shreveport, Lt., says: "Dr. King's New Discovery is the only thing that cures my cough, and it is the best seller I have." J. F. Campbell, merchant of Safford, Artz., write; "Dr. King's New Discovery is all that is claimed for it; it never fails, and is a sure for Consumption, Coughs and Colds. I cannot sav enough for its." morite." Dr. King's New Discovery for Consumption, Coughs an ! Colds is not an experiment. It has been tried for a quarter of a century, and soday stands at the held. It never disappoints. Free trial bottles at Tombetone and Bisbee Drug Store.

Our lumber merchants are in receipt of large consignments of building materials. Bishes has no boom but is constantly inc easing, elegant and substantial cuttages being erected

Colonel Land shipped 500 head of eattle yesterday to eastern points. Cattle shipments are the order of the day, and that indu try seems to be on the top wave of success.

Several cases of petit lare by has been reported this week, disturbing and Snow, search for evidence with which to con-

Bisbes boasts of two of the finest draft teams in southern Arizona. One other English, the horses averaging truck wagon and the other on the

The first of the spring shower came this evening, laying the dust, purllying the air and giving vegetation a cheerful appearance. Later on we will have heavier showers, when the city will be cleansed under foot; the putrefactions will be wiped away, imparting a more bealth-inspiring order than has heretofore arisen from some quarters to stille the nostrile of those who unwittingly strayed into

the uncleanly section.

As the warm weather approaches tourists begin to take their leave for seaside resorts where the cool winds. laden with enervating odors kiss the palid cheek of the weary, drive away disease, banish dull care and leave in the glow of health, a soul dilating with joy. Many Bisberites are preparing to bask in the sun and frolic on the sands where the sad sea ever

Geo. W. Cool, doctor of dental surgery, who has been established in Bistes for the past three months, will make a short business circuit during the summer. He will visit Tomb stone for a couple days about the 18th to make appointments with parties desirous of having work done and he will probably open his dental parlors there about June 1-t. Dr. Cool has diplomas and credentials from some of the best dental schools and his work in Bisbee has reseived general commendation. He guarantees all work to be strictly first class and done and the vicinity should be well pleased with the opportunity he offers them of having their wants in his line so well attended to.

In speaking of the accident which befel Mr. Waughtel of Dos Cabezas the Star says he was accidently shot in left arm and shoulder by a rifle which he was carrying between his legs while driving a buckboard. In going over a rut the gan slipped and went off, the ball passing through the erm and shoulder, fracturing the bone into as many as twenty pieces and lacerating the flath badly, so that it was impossible to save the a'm. Dr. J. V. Gaff was sent for by telegraph and went out on yesterday's train. Assisted by Drs. Walters and Nichotson, of Willcox, it was determined the arm could not be saved, and the arm was amputated at the shoulder. The patient was doing well and when Dr. Gaff left yesterday at 10 o'clock. Dr. Gaff states that had not the amoutation been promptly made the patient would not have long survived the

THE MINING INDUSTRY.

Expansion Healthy and Free Au Escaped Burglar Captured From Dishonestv.

ing-se much so that such enterprises were invariably referred to as "ventures," says the Globe Silver Belt.

There is nothing "dead sure" in this world; chance enters into all our calculations, in every avenue of human endeavor; and it is a blessing ambition and enterprise would be lacking. There is a faccination about the search for treasure hidden in the rocks and blended with the drass which has been a great stimulus to the development of our resources. The hope of "striking it rich" has surtained the prospector through years of weary toil, danger and privation, and when confronted with disappointment it has spurred him on to renewed effort. The prospectors were the vanguard of the industrial army that has peopled the great west. The prospector blazel the way for those who came after him equipped with the knowledge and resources needful to unlock nature's treasures and enrich t . world with gold and silver and the baser metals of industry.

Mining as now conducted is as legitiorate as any other business, and its lation on the part of the purchaser. and the prospector realizes less from the sale of his claims than formerly. The day of fabulous prices for undetendency in mining as in everything

MIRACULOUS ESCAPE.

A Train Passes Over a Child Sound Advice to the Business Without Irjury.

Routs Agant Fisk of Wells, Fargo & Co, who arrived in Phoenix from Nogales, reports to tie Republican a very peculiar case as occurring near Crittenden, on the N. M. & A. road last Saturday morning, in which a little baby had a most narrow escape from a horrible de. to. The train on which Mr. Fisk was traveling was making good time along the read when all at once a little baby appeared on the track close to the engine. The engineer reversed his engine and put on the air brakes but the pilot of his engine struck the little one and she was thrown under the train. As soon as the train stopped tue horrified engineer and fireman jumped from their engine expecting to see the hitle one crushed to death and her remain scattered along the track, but were most agreeably surprised to see her erawl from under the last car of the train absolutely un hurt. She had evidently been thrown under the train in the middle of the the train passed over her.

A special train bearing 300 delegates and their families, from the Atlanta, and about 500 people from the eastern tomorrow in Los Augeles. It is exextensive preparation has been made for their entertainment. Both trains hotels were very busy feeding the hungry passengers; about half of which were fed at the New Orndorff here for points in Arizons. and half at the San Xavier .- Citizen.

A crowded hou will undoubtedly greet the Footlight Flashers tomorrow night at Schieffelin Hall. Admission 75 and 50cts.

A letter from the assistant commissiener of the general land office at Washington informs the register and receiver at Tueson that the supreme court has decided against Los Nogales de Elias private land claim. Fellowing is the letter.

"By the decision of the supreme sourt of the United States in the case of Aines vs. United States (161 U. S. Reports, 208), the right of the claimante to Los Nogales de Elias private land claims was denied and their S. C. cisims thereto disallowed.

"By letter of this date to the register and receiver at Tucson, the lands included in said claim have been restored to the public demain."

Do not forget the dance at Mining Exchange Hall tomorrow night.

Remember the Footlight Flashers on Saturday sight Scaleffelin hall.

C. L. Cummings left this moraing for Nogales on a cat:le purchasing expedition.

TRADE WITH ARIZONA

Men of Los Angeles.

The Los Augeles Express gives the following timely advice to its mer-

hants and business men : "Just now, when merchants of this city are making such atrenuous effects to secure trade with the sister republie and are rejoicing ever the fact that Mexican steam-re will stop for freight at loom ports, it might be pertinent to call attention to a rich field much nearer at hand and promising much more satisfactory result .

"The field is the territory of Arizona; how it has escaped the attention of local merchants, to the extent it has, a a mystery. Here lies a vast field of riches at our very dors, whose new capabilities are every day brought to i ght, and yet a great part of whose rade, which should properly come to this city, is going to other points. "Some of the progressive local deal

ers have worked up this field with great profit to themselves, but there is still a boundless opportunity far Los track and had laid perfectly still until Angeles merchants. Arizona is rapidly becoming the most productive mineral region in the world. Irrigation systems are being arranged that will reclaim millions of acres of her Ga., division of the O. R. C. passed fertile, but, at present, atil desert through Tucson on Sunday morning lands. The business of furnishing her with adequate machinery and supstates this morning. They are all plies should legitimately come to Lis bound for the meeting of the grand | Angeles, as the nearest point in disdivision of the O. R. C. which opens tance and time, and the most conomical port for purchase. As a matter of pected that there will be about 4,000 fact, a greater part of this trade goes visitors in that city this week and an to eastern points, and Los Angeles comes in only on a part of the mining machinery and mills, which the nece . stopped here for breakfast and the sities of the territory demand. Within the past three weeks at least three quartz mills have been purchased

> "Another feature that should not be overlooked is that A izonans are the best kind of custo ners, for they have ready cash with which to pay for their purchases. Plenty of capital is pouring into the usines of the territory from eastern centers and mest of them are proving successful.

"Let our enterprising business men get all the Mexican trade possible, but for their own good and for the benefit of this city, let them not neglect the valuable territory almost at home, while some eastern dealers get in shead of them. Great numbers of ed charge of murder and given until Arizona people spend their summer here, and it would be no difficult matter to establish such business rela ions as should exist between points so sleeely suplementary to each other."

Hon. Thos, F. Weedin is putting up KONG KEE, PROF. machinery on his Arcade group of many weeks will be making regular shipments of concentrates. The machinery consists of a 10-horse power Webe: gas engine, a concentrating mill capable of working a ton of ore an hour, a Blake crusher, and a Hartz jig siz r. Twenty tons of ore will be reduced to one and shipped. The Arcade mine, at a depth of 125 feet, hus 4 -foot vein of ore which assays 560 unces to the ton .- Florence Tri-

A dispatch from Prescott says nothing has been heard from the pesse in pursuit of Parker since yes terday morning, when the Indian trailers were put on the trail, less than twenty-five miles from Prescott. At that time the officers felt certain they would capture their man before night. None of the escapes are yet located.

Cards of Thanks.

The undersigned desires by this to express heartfelt thanks to the many friends in Pearce who so kindly sympatized with us in the loss of our darling baby. That they may never lack friends in the hour of need is the sincere wish of
